A music player and jukebox for Windows.Q: How to load a UserControl when a page is loaded? I have a UserControl that is set to the MasterPage template. When I hit my homepage I want to load the control (I know the MasterPage isnt necessary to do that), is that possible? A: When you're in your MasterPage, you can access the SiteMapManager in the System.Web.UI.MasterPage class like so: SiteMapManager.SiteMap.RootNode.Controls You can then add a control to that root node from a MasterPage as well. The HOPE (Helping Other People Enjoy) program promotes the health and well-being of individuals, families, and the community by improving and preserving the quality of life in the Eugene/Springfield area through the delivery of comprehensive health care services, a human services resource network, and support groups, particularly for cancer survivors and people affected by cancer. Mission The HOPE program is a community based, holistic, and comprehensive health care resource, serving individuals, families, and the community with the mission to improve and preserve the quality of life in the Eugene/Springfield area. Mission Vision: A healthy community free of fear, disease, and discrimination, characterized by improved and preserved quality of life, through the delivery of comprehensive health care, a human services resource network, and support groups, particularly for cancer survivors and people affected by cancer. "I like coming here to be with my friends. It's a place where I can be me and it's a good way to get my mind off everything."- Michaela Delgado "It's very informative, I am just trying to come out and get that bad part out of my head. It makes me feel better."- Allison B. "I think that it is important to support women in their post-cancer journey, and the HOPE program does just that."- Brenda Mills "HOPE has given me hope that life is worth living, and that my life is in good hands."- Alyssa M. "I've met some friends that I would never
